Principal's foreword

Introduction

Thank you for taking the time to read our annual report. Mount Isa School of the Air is a school that operates across one quarter of Queensland. The quality of education that our children receive is a credit to our families who teach their own children on a daily basis. We are indebted to their commitment and praise them for the wonderful results they achieve, with our guidance and support, with their children.

School progress towards its goals in 2012

2012 was the third and final year of 2010-2012 Strategic Plan and the school has made significant steps towards achieving the outcomes. The reading program has been extended to include Personal Learning Time (PLT) to improve literacy and numeracy. The rollout of eLearning continues in a structured way. The new curriculum materials continue to inform our curriculum and teaching planning. Our building for the inreach program is now complete and its usage is growing and changing the way that we operate. Our field program is continually being fine tuned to ensure that our community's needs are understood.

Future outlook

Priorities for 2013-2016

1. To build capacity in our secondary department by forming a Western Alliance with Charleville and Longreach SDE's to allow more specialist teaching, greater subject choice and extra curricula offerings and a larger cohort for student interaction both on air and in the field. This will be achieved in conjunction with transitioning Year 7's to Secondaries under the Flying Start proposal.
2. All staff, tutors and students will become familiar with and tested with a learning style inventory to help us differentiate curriculum for students according to their different learning styles. Older students to use this knowledge to develop effective personal learning strategies.
3. To implement a system of analysis of NAPLAN results in conjunction with other schoolwide diagnostic assessments to determine on air, field and curriculum priorities that can be specifically implemented in each year level.

Queensland State School Reporting 2012 School Annual Report

4. To fully embed and operationalise the new Australian Curriculum in a Distance Education context with a focus on the needs of a geographically isolated student. Operationalising includes creating a consistent and systemic model for feedback to students and their home tutors and to determining the most appropriate on air and curriculum delivery methods.
5. To provide a consistent systemic model of reading instruction across all year levels.
6. To develop a tiered spelling program to value add and to support the implementation of the spelling in the C2C curriculum.

Curriculum offerings

Our distinctive curriculum offerings:

We offer many exciting extra-curricular activities such as violin, recorder, Scouts of the Air, Rock Pop Mime, Opti-Minds, Fun Friends and Good News Club.

We provide our students with their curriculum through paper/web-based materials, through on-air synchronous daily lessons, daily reading lessons and through our field program. Core **learnings** are based on the key/core learning outcomes for all strands in all key learning areas as described in syllabus documents developed by the Queensland Studies Authority and the National Curriculum.

Extra curricula activities

We offer many exciting extra-curricular activities such as violin, recorder, Scouts of the Air, Rock Pop Mime, Opti-Minds, Fun Friends and Good News Club.

How Information and Communication Technologies are used to assist learning

Due to the nature of providing education at a distance we utilize many technologies. Audio lessons are provided using our telebridge. We use iConnect on a daily basis and Blackboard and EdStudio are our means of providing a curriculum space online.

Social climate

Given that our school community extends across one quarter of Queensland we have a wonderfully supportive, caring and active school community. There is strong cohesion in relationships between staff, parents, governesses and students. This is reflected strongly in our satisfaction surveys

Our school at a glance

Parent, student and staff satisfaction with the school

Through continued hard work by our school community we collectively enjoy high levels of satisfaction by parents, students and teachers. We perform well above state averages and significantly above like schools.

Involving parents in their child's education

Our school is not a school of children rather it is a school of families. A strong network of support has developed within and out of our school community. There is a strong degree of parent participation in the planning and review processes with strong parent participation on various committees supporting school operations. Parents provide the face-to-face teaching to our students in their home.

Due to the nature of distance education parents are integral in the education of our students.

Reducing the school's environmental footprint

Data is sourced from school's annual utilities return and is reliant on the accuracy of these returns.

The school has had solar panels and a water tank installed to help minimise usage. We have fitted energy efficient lights throughout the building and have placed timers on all irrigation systems. The school is increasingly moving to a more digital delivery thus minimising paper usage. Under Education Queensland's Cooler Schools program we have moved from an evaporative air conditioning system to a refrigerative system and as a result we have increased electricity usage.
